

PRODUCT DESCRIPTION

The BF GLITTER series is made up of covering polyurethane films with glitter included into the working process. This type of processing guarantees the smooth, shiny and glittered effect at the same time. The semi-gloss thermo-adhesive makes the cutting line highly visible and its adhesive polyester backing allows for quick weeding and easy repositioning of accidentally removed characters. The 100-micron thickness and its elasticity make the BF GLITTER series pleasant to the touch and conformable on any fabric and suitable for multilayer applications. It is resistant to washing up to 60°C.
